PROFILE

A passionate and results-driven Web Developer and App Developer with a strong foundation in designing, developing, and deploying dynamic, user-centric web and mobile applications. Proficient in front-end and back-end technologies including HTML, CSS, JavaScript, React, Node.js, and React Native. Adapt at working collaboratively or independently to meet project deadlines and solve complex technical challenges.

SKILL EXPERIENCE

Fullstack Developer (2 Years)

Freelance

- Developed and maintained fully responsive web applications using HTML, CSS, JavaScript, React for front-end and Node.js, Express for back-end.
- Designed and implemented RESTful APIs and integrated third-party services to enhance application functionality and ensure seamless data flow between front and back-end systems.
- Built and deployed full-stack applications using MongoDB and MySQL databases, ensuring optimal performance and scalability.

App Developer (1 Years)

Freelance

- Built and deployed cross-platform mobile apps using Flutter and React Native, ensuring smooth performance on both Android and iOS devices.
- Designed and developed user-friendly interfaces, focusing on UX/UI best practices to deliver intuitive and responsive applications.
- Integrated RESTful APIs and third-party services, enabling real-time data updates and enhancing overall app functionality.

Data Analyst (Some Experience)

Freelance

- Collected, cleaned, and analyzed large datasets using tools like Python, and SQL to generate actionable insights and support data-driven decision-making.
- Developed visualizations and dashboards with Power BI to communicate complex data trends and patterns to stakeholders.
- Conducted statistical analysis and predictive modeling to identify key performance indicators (KPIs) and forecast business outcomes, improving operational efficiency.
